**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

### **DETAILED ACTION**

1. This Office Action is responsive to communication filed on 02/23/2010.

#### ***Response to Amendment***

2. The proposed amendments to claims will not be entered because they would require further search and/or consideration. For example, claims 1, 13, 15 and 18 now recite "the track control attribute affecting a duration of a media item in the first media track referenced by the subsequent EDL element in the modified sequence, the duration of the media item in the first media track being based on a duration of the another media item in the third media track". The previous underlined arrangements were not previously defined, thus making the amended claims more specific and necessitating further search/or consideration. Independent claims 1, 13, 15 and 18 thus would require further search and/or consideration.

#### ***Conclusion***
